F.E.D. (Friends and Family of People with Eating Disorders) Support Group

Eating disorders are complex problems which affect not only the person struggling, but any significant person in his or her life. If someone you know is struggling with an eating disorder, there are ways that you can help and get support for yourself.

The group is designed to provide education, resources, and emotional support to people in relationships with anorexics, bulimics or binge eaters. This group is facilitated by Ephrat Lipton.
